

## IPTA Family Newsletter | February 2026 Update

**Dear IPTA Families,**

At IPTA, our vision is to create a warm, welcoming, and supportive environment where individuals are given the opportunity to play, learn, and grow through every stage of life. We strive to be a constant in a nonconstant world—adapting to the ever-changing needs of our clients and families while remaining grounded in compassionate care. In an ongoing effort to commit to this vision, we are excited to share several important updates with you!

### **Growing Our Speech Therapy Department**

As Summit Speech Therapy moves in a different direction and will no longer be co-located with IPTA, we are expanding our in-house Speech Therapy Department to continue meeting the needs of our community.

**Here's what's happening:**

- Iron Horse Therapeutic Farm is currently offering speech therapy
- Greeley speech evaluations and treatment begin **February 20th**
- Windsor speech services will launch late spring/early summer

If you would like to continue all your services at an IPTA location, please contact:

**Kenzie** (Windsor Patient Care Coordinator) at 970-305-5070

**Corina** (Greeley Patient Care Coordinator) at 970-702-2507

We are happy to add you to our speech evaluation list. Likewise, if you would like to transfer OT services to another clinic, please reach out so we can ensure a smooth transition for your family. We are honored by the trust you place in us and are excited for this new chapter of growth.

### **New Outdoor Therapy Space – Windsor**

This month we installed a fully fenced, outdoor low-sensory therapy space at our Windsor clinic. This safe and secure environment will support:

- Gross motor development
- Social skills
- Executive functioning
- Nature-based OT, PT, Speech, and Music therapy

We will continue adding to and enhancing this space throughout the spring and summer.

## Welcome Best Life PT

We are thrilled to welcome **Best Life PT** and owner Paige Hedstrom to the IPTA family! Paige and her team are dedicated to providing supportive, child-centered physical therapy care.

Even better—there is currently **no waitlist for PT** at either of our clinical locations.

Stay tuned for more exciting updates coming in 2026, and be sure to follow us on Instagram at **@integrated\_ped\_therapy\_assos** and **@ironhorsetherapeuticfarm**

Thank you for allowing IPTA to be part of your family's journey. We are grateful to grow alongside you.

**With appreciation,**  
The IPTA Team
